REVENUE DATA

This section shows the revenues of school districts for operating elementary and secondary public school programs. Revenues used to support health and welfare services for nonpublic school students, transportation for nonpublic school students, and adult education programs are excluded in each case. Revenues for food services and student activities are shows as *net* values (i.e., net of sales revenues).

Total Revenue:	Total revenue is equal to total expenditures (see expenditure data below for more detail), "End of School Year Report," ED-001, September, 1981.
Federal Grants:	Total federal education aid to the town or school district excluding federal impact aid, "Education Equalization Grant Federal Grants Worksheet," School Year 1980 - 81.
State Grants:	Total state education aid to the town or school district, not including state Education Equalization Aid in regional school districts. Such equalization aid is included in the total state grants to the member town's local elementary district. From "State Grant Payments made for Public and Nonpublic School Programs and Activities from July 1, 1980 to June 30, 1981."
Local Taxes:	Derived as the residual of total revenue less the sum of federal and state grants and tuition revenues.
Tuition Revenues:	The total of payments received by the school district for the education of non - resident pupils attending district schools.

SELECTED STATE GRANTS

Eight of the major state education aid grants have been selected for display. These grants represent, in dollar terms, approximately 97% of all state education aid to towns and regional school districts for public elementary and secondary education programs. From "State Grant Payments made for Public and Non - Public School Programs and Activities from July 1, 1980 to June 30, 1981."

General Aid:	Education Equalization Aid grants to eligible towns.
Special Education Aid:	A grant based on the local school district's reimbursable expenditures for special education programs and services for resident pupils in the previous school year, for both handicapped and gifted and talented programs and services. It does not include state aid for special education for children who are under the care, supervision or guardianship of any agency of the state, including children in group homes. The state reimburses local school districts for the costs of special education programs for these children in a separate grant.
Transportation Aid:	A grant based on the local school district's expenditures for pupil transportation in the previous school year. Local costs for special buses for handicapped students are not reimbursed under this grant program, but rather under the state's special education grant program.

Bilingual Education:	A grant paid to those school districts that are required to provide bilingual instruction under section 10-17g of the Connecticut General Statutes - i.e., when there are twenty or more eligible children in any district school who are classified as dominant in any one language other than English.
State Aid for Disadvantaged Children:	A grant paid to school districts to provide supplementary compensatory education for students who are economically and educationally deprived.
Vocational Agriculture Tuition:	A grant to support vocational agriculture centers at high schools in sixteen school districts and to support the tuition costs of other school districts sending resident students to vocational agriculture centers.
Child Nutrition:	A grant supporting school lunch programs in local school districts. Aid amounts are based on the number of meals served.
School Building Aid:	The sum of various state grants that support land acquisition and school building projects by local school districts.

SELECTED FEDERAL GRANTS

These five federal grants represent more than 90% of all state - administered federal grants to school districts for public elementary and secondary education.

Educational Improvement for the Handicapped:	A grant to school districts to help them provide programs and services for all handicapped children.
Children of Low-Income Families:	A grant to school districts to expand and improve educational programs to meet the needs of educationally disadvantaged children in low - income areas.
Child Nutrition:	A grant which, combined with the state child nutrition grant, supports school lunch, school breakfast and other nutrition programs in district schools. Free or reduced - price meals are provided to children in low - income families.
Vocational Education:	A grant to school districts to conduct and improve vocational education programs.
Educational Innovation and Support:	A grant to support innovative and exemplary projects, health and and nutrition programs, and drop - out prevention projects.

EDUCATION EQUALIZATION DATA

Adjusted Equalized Net Grant List Per Capita:	The measure of town wealth, in dollars, used to calculate state Education Equalization Aid to towns for 1981 - 82. Towns are ranked from wealthiest (1) to poorest (169).
Equalized School Tax Rate:	The measure of school tax effort, in mills, used to calculate state Education Equalization Aid to towns for 1981 - 82. Towns are ranked from highest tax rate (1) to lowest tax rate (169).

Student Need:	The measure of student need used to calculate state Education Equalization Aid to towns for 1981 - 82. Towns are ranked from largest (1) to smallest (169).

AID AND EXPENDITURE DATA

Special Education:	The state support percentage, based on town wealth, used to calculate special education grants to school districts for 1981 - 82. These percentages range from 30% to 70%.
Transportation:	The state support percentage, based on town wealth, used to calculate transportation grants to school districts, for 1981 - 82. These percentages range from 20% to 60%.
School Construction:	The state support percentage, based on town wealth, used to calculate school construction aid to school districts for 1981 - 82. These percentages range from 40% to 80%.
Equalization Aid Per Pupil:	The state Education Equalization Aid grant per pupil for 1981 - 82. Per pupil amounts are based on 1979 - 80 ADM counts of towns. Education Equalization Aid grants are paid to towns.
Minimum Expenditure Requirement Per Pupil:	The amount the town is required to spend per pupil in 1981 - 82. Each town has a unique Minimum Expenditure Requirement based on 1) the state median pupil expenditure level in the second previous year; 2) the concentration of economically deprived children between the ages of five and eighteen years old in the town; and 3) the town's per pupil expenditure level in the second previous year. Amounts shown are phased - in minimums.

EXPENDITURE DATA

All expenditures shown in this section are based on fiscal reports submitted by local school districts, "End of Year School Report," ED-001, September 1981. Expenditures are grouped in terms of function, i.e., the purpose for which an expenditure is made. Unless otherwise noted, expenditures include expenditures from federal, state and local funds.

Total Expenditures:	All expenditures for programs and services for public elementary and secondary school students, except expenditures for adult education programs, community services, and services for nonpublic school students. Total expenditures include expenditures for resident students educated outside the district as well as expenditures for students, resident and non - resident, who attend district schools. The per pupil amount is based on the total number of students attending district schools plus the number of resident students educated outside the district.
Net Current Expenditures:	Total expenditures, as defined above, less the sum of expenditures for pupil transportation and capital equipment and tuition receipts for non - resident students. This amount represents current operating expenditures for *all resident* pupils. The per pupil amount is based on the total number of students attending district schools plus the number of resident students educated outside the district.

Regular Instruction:	The sum of district expenditures for regular instructional programs and for the improvement of instruction. The per pupil amount is based on the total number of students in district schools.
Special Education Instruction:	The sum of district expenditures for special education instructional programs.
Compensatory Education Instruction:	The sum of district expenditures for supplemental compensatory education programs.
Pupil Support Services:	The sum of district expenditures for pupil services such as social work, guidance, health, psychological, and speech and hearing services. The per pupil amount is based on the total number of students in the district.
Administration:	The sum of district expenditures for administrative services. The per pupil amount is based on the total number of students in the district.
Fiscal and other Support Services:	The sum of district expenditures for fiscal, business and central office services. The per pupil amount is based on the total number of students in the district.
Transportation:	The sum of district expenditures for pupil and other transportation. The per pupil amount is based on the number of students reported as receiving bus transportation.
Food Services and Student Activities:	The sum of district expenditures for food services and student activities. This sum represents gross food services expenditures plus net student activities expenditures (i.e., total student activities expenditures less revenues from student activities). The per pupil amount is based on the total number of pupils in the district.
Operation and Maintenance of Plant:	The sum of district expenditures for the operation and maintenance of school buildings and property. The per pupil amount is based on the total number of pupils in the district.
Tuition Payments to Other Districts:	The sum of district expenditures for tuition for resident students educated outside the school district. The per pupil amount is based on the number of resident students for whom tuition is paid.
Land, Buildings and Debt Services:	The sum of district expenditures for the acquisition of land and buildings and payments of the principal and interest on school bonds. The per pupil amount is based on the total number of students in the district.
Net Current Local Education Expenditures:	The sum of education expenditures from local taxes excluding any expenditures for adult education programs, health and welfare services for nonpublic school students, and capital expenditures. This is the measure of local taxes for elementary and secondary education programs used to calculate Education Equalization Aid grants. The per pupil amount is based on the

total number of students in the district. No amount is shown for high school regional school districts. Local taxes used to support high school districts are included with local taxes for elementary school districts in the member towns. For K - 12 regional school districts, the amount shown is the sum of local taxes from all member towns.

% Above or Below Median:	The per pupil amount compared to the state median per pupil amount for the expenditure category. The state median is shown on the Connecticut page. No comparison to a state median is shown for tuition payments.
